

## Lean On Me

Bill Withers

### Verse 1:

**C**                      **F**                      **C**  
Sometimes in our lives, we all have pain  
                         **G**      **C**                      **F**  
We all have sorrow, but if we are wise  
                                 **C**                      **G**      **C**  
We know that there's always tomorrow

### Chorus:

**C**                      **F**  
Lean on me, when you're not strong  
                                 **C**                      **G**  
And I'll be your friend, I'll help you carry on  
**C**                      **F**                      **C**  
For it won't be long, 'till I'm gonna need  
                                 **G**      **C**  
Somebody to lean on

### Verse 2:

**C**                      **F**                      **C**  
Please swallow your pride, if I have things  
                         **G**      **C**                      **F**  
you need to borrow, for no one can fill  
                                 **C**                      **G**      **C**  
those of your needs, that you don't let show

### Verse 3:

**C**                      **F**                      **C**  
If there is a load, you have to bear  
                         **G**      **C**                      **F**  
That you can't carry, I'm right up the road  
                                 **C**                      **G**      **C**  
I'll share your load, if you just call me

### Bridge:

**C**  
So just call on me brother, when you need a hand  
                         **C**                      **G**      **C**  
We all need somebody to lean on  
                                 **C**  
I just might have a problem that you'd understand  
                                 **C**                      **G**      **C**  
We all need somebody to lean on
