### Verse 1:

**G**                      **Cadd9**   **G**                      **D/F#**

Tale as old as time,                      true as it can be

**G**                      **Em7**                                      **Cadd9**

Barely even friends, then somebody bends

**D/F#**

Unexpectedly

**G**                      **Cadd9**   **G**                      **D/F#**

Just a little change,                      Small to say the least

**Em7**                      **Cadd9**                                      **Am7**

Both a little scared, neither one prepared

**D/F#**                      **G**

Beauty and the Beast

### Chorus:

**G**                      **D/F#**   **Cadd9**                      **D/F#**   **Cadd9**

Ever just the same,                      ever a surprise

**D/F#**                                      **Em7**

Ever as before,                      ever just as sure

**Am7**                      **D/F#**

As the sun will rise

### Verse 3:

**G**                      **Cadd9**   **G**                      **D/F#**

Tale as old as time,                      tune as old as song

**G**                      **Em7**                                      **Cadd9**

Bittersweet and strange, finding you can change

**D/F#**

Learning you were wrong

**G**                      **Cadd9**   **G**                      **D/F#**

Certain as the sun,                      rising in the east

**Em7**                      **Cadd9**                                      **Am7**

Tale as old as time, song as old as rhyme

**D/F#**                      **G**

Beauty and the Beast
